Orientation

Celebrate Research!

June 14, 2010

On June 14, 2010 the O.I.D. was pleased to honour Dr. Catherine Fichten with the first "Recognition of Research" award, at a soirée designed to celebrate both her own and others' research. The OID is proud to support research by Dawson faculty members, and we thank Richard Filion and Bob Kavanagh for expanding the research community at Dawson.

The Office of Instructional Development proudly exhibited some of the many wonderful student projects supported by the SSAP fund over the last few years in the Warren G. Flowers Gallery. The Vernissage was held on Wednesday, February 3rd, 2010, and was well-attended by students, faculty, staff, and parents. A great big thank you to everyone who contributed to this event and a special thank you to Joe Di Leo, without whom this exhibition would not have been possible.

Here are a few of the comments left by visitors to the Gallery:

"Many thanks for exhibiting students' talent and teachers' generosity."

"Fantastic display of talent, ingenuity & creative verve, thank you for making it happen!"

"So nice to see student work showcased."
